

Peter Obert

Technology Architect

Cloud Solutions Specialist – AI and Application Integration
Development

Organization

Oracle Slovakia

Technology Engineering – AI &
App Modernization –
Application Integration Solutions
Specialist- Technology Architect
- EMEA TE

Professional summary

I am a Cloud Solution Architect in the Oracle Technology Engineering (TE) since the summer 2022. I am a Business Process Innovations Cloud Solution Specialist/Architect focusing on Cloud Integration, Process Automations, Digital Assistant, API Management, Agentic AI, AI Tools and Services, and Innovation Processes to adopt Oracle Cloud Infrastructure (OCI) cloud native services and platforms (EiPaaS). As a Cloud Solution Architect, I am responsible for the Cloud Workloads Architectures creations, Deep technology expertise, services adoption support, PoC creation and product demonstrations.

Before 2021-2022 I worked as an Emerging Technology Workload Architect focusing on Cloud Integration, Events, Data Streams, Digital Assistant, and Innovation Processes to Lift the customers workloads to Oracle Cloud Infrastructure (OCI). As a Cloud Solution Architect, I was responsible for Workloads Lift/Shift and Oracle Cloud Technologies Adoption.

Before 2008-2021 I worked as the Technology Consultant and Consulting Technical Director in Oracle Consulting Services (OCS) I was participating in projects in various phases from analysis/design to implementation, taking roles of product expert, technical architect, and solution designer. I was focused on technology and has experience with many Oracle products. As a member of Centre of Excellence (Integration and Cloud Competence Center) I used to create and implement successful Integration and Cloud Solutions in the EMEA region in the solution areas: Cloud Transformation, SaaS Extensions, PaaS, SOA and Integration, Hybrid Cloud Solutions, Identity and Access Management, API Platform, Master Data Management, IoT, Big Data, ...

Responsibilities:

- Consultancy in pre-sales, analysis, design, implementation, and delivery phases of projects
- Responding to RFI/RFPs
- Creation of solutions - business, data, application, and technology architectures
- Scoping the projects
- Presentations for customers
- Creating project plans and Qualified Estimations
- Troubleshooting and Performance optimization (PaaS, FMW stack, SOA CS, OIC)
- SOA and BPM Assessment
- Cloud Architecture Assessment – creating road maps, consolidation, automation, optimization, and maximization strategies
- Implementation of Proofs of Concepts, Providing product demonstrations

- Coaching and mentoring, Driving regional initiatives in Oracle

Core Competencies

Industry competencies:

- Telecommunications
- Financial
- Utility

Cloud competencies:

- Oracle Cloud Infrastructure OCI
- OIC, ODA, VBCS, Processes
- Oracle Stream Analytics
- SOA Cloud Service
- OCI API Management
- OCI GoldenGate

Product competencies:

- All Oracle FMW Middleware
- Oracle API Management
- Oracle Enterprise Governance Suite
- Oracle Enterprise Manager

Technologies and methods

Tools

Archi (ArchiMate), CMMN tools, DMN Tools, Oracle Business Process Analysis (BPA) Suite/BPMN, Sparx Enterprise Architect, Oracle JDeveloper, Oracle SQL Developer, Eclipse, Maven, ANT, SVN, Git, SOAP UI, Postman/Newman, IntelliJ Idea, NetBeans, Octave

Programming Languages and Operating Systems

Java (J2EE, J2SE): EJB, JMS, JNDI, JDBC, Web Services, Portlets, JSP, Servlets ASP.NET, Hibernate, JDO, ADO.NET, UML, BPMN, BPEL4WS, XML, XSL, HTML, Java Script, PLSQL, Transact SQL, C, C++, C#, 4GL, D4GL, Pascal, Occam, Centura SQL, Python

Linux, UnixWare, SCO Unix, AIX, Digital Unix, MsW2k, MsW3, MsSmBS R1-2

Methods

Oracle True Cloud Method, Enterprise Cloud Adoption, SCRUM, Oracle Unified Method (OUM), Rational Unified Process

Some Certifications

Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate (2023)
Oracle Cloud Platform Application Integration Professional (2022)
Oracle Cloud Infrastructure (OCI) Architect Professional (2022)
Stanford University – Machine Learning (2021)
TOGAF 9 Certified (2016)
ITIL® Foundation Certificate in IT Service Management (2013)
Oracle Unified Method Level 3: Gather Business Requirements (2011)
Oracle SOA Foundation Practitioner (2011)
PMI – Project Management Institute Certificate (2010)

Technology Engineering - Selected Cloud Architecture Projects Delivered to Production

Date	Customer	Cloud Use Case	Oracle Cloud Infrastructure Services
2026	Mawarid Finance, UAE	I participated on conduction of the Integration Architecture and API Access using OCI PaaS Services and IaaS resources. Hybrid Solution architecture design and bill forecast for the future integrated environments including Disaster Recovery. Benefits for the customer: Accelerated Development which drastically reduces manual coding and time-to-market	Oracle Integration Cloud (OIC), Oracle OCI API Management, OCI OIC Private Endpoint and OCI Networking Resources, Oracle Core Banking Platform (FlexCube)
2025	Petrofac UAE	Petrofac was requesting for the initial sessions for the in-house development team to be able to utilize OIC practice and extend the current practice with the Visual and Process automation Applications. I provided Solution Advisory on top of utilized Visual Applications and proposed Integration and Process Automation Services	OIC, Oracle Visual Builder Cloud Service, Autonomous Database, OCI Logging & Logging analytics
2024	IER France	Solution Architecture design, prototyping and implementation advisory to integrate Email Accounts to Ticket Management for several categories of support tickets using Named Entity Recognition – Language AI.	OIC, OCI Language AI – custom model, Data Labeling (ML), ADW (or Ticket Management APIs), OCI Logging & Logging analytics
2023	Dubai Real Estate Centre	Solution Architecture design, prototyping and implementation of the Document to Salesforce Account and Shipments to integrate and automate processes of new account creation and Shipment lifecycle automation using OCI document Understanding and OIC.	OIC, OCI document Understanding AI, OCI API GW, Salesforce, VisualBuilder, OCI Logging & Logging analytics
2023	Arabian Oud EiPaaS	Solution Architecture design and implementation advisory to integrate ERP, PoS, Universal Commerce and Cloud CRM.	OIC, OCI Compute and Networking Services, EBS, MySQL, OCI DBaaS, OCI Logging & Logging analytics
2022	AccorInvest EiPaaS	Solution Architecture design and Oracle Implementation Partner Advisory to integrate centralized Accounting Hub ERP	OIC, OCI Compute and Networking Services, EBS, ERP CS, Oracle

Date	Customer	Cloud Use Case	Oracle Cloud Infrastructure Services
		with Hospitality Financial Services and Custom All In One AccorInvest application.	Autonomous DBCS – ATP, ODI Marketplace
2022	Credit Suisse Point-to-Point integrations Lift to EiPaaS	Solution Architecture Design and Lift Implementation Advisory for integration of HRM (Taleo, Peoplesoft) and Oracle Service Cloud	OIC, Oracle Service Cloud, Peoplesoft, Taleo, OCI Logging, OCI Logging analytics
2021	Canny Quest Managing technology based services for electronic financial transactions	Design and Side by side implementation Lift/Shift strategy to re-engineer and transform OSB solution to OIC+API Gateways. Exposed service APIs are consumed with third party applications.	Oracle Cloud Integration Visual Builder Studio OCI API Gateway API Platform OCI Logging, OCI Logging analytics
2021	MCT FZE Chalhoub Group Data Replication from OCI to Google BigQuery (ERP, WMS, RMS)	Design and Implementation Lift/Shift strategy to replicate data from ERP, Warehouse Management and Retail Management systems to Google Cloud BigQuery.	Oracle OCI GoldenGate Oracle GoldenGate Streaming Analytics Marketplace
04/2021-07/2021	Atradius, NL	Oracle MW Expert for Oracle MW Infrastructure. Supporting Testing, Performance Testing, API Management and Secure API Consumption.	WLS, OHS, OSB, SOA, BPM, Oracle JET, Oracle API Platform, Postman, SOAP UI, WLST

Selected Consulting Projects

G4S, UK [Security]		November 2020 – March 2021
Project:	G4S – Oracle workload migration Taleo -> Oracle Recruitment Cloud - Integration Cloud Transformation within SaaS	
Role:	Technology Architect and Delivery Manager for Integration	
Description:	Project introduces Taleo to Oracle Recruitment Cloud hiring process migration. ORC(HCM) SaaS integrates through SaaS capabilities and pure Java with external screening systems and hiring operations. Customer is in the process of transition of hiring process to Oracle primary product with roadmap to fulfil near future business requirements. (HDL, BIP extracts, database exports, SOAP, REST). Hybrid Architecture: On-Premise – Java servers, Vetting Manager (UK background screening system), SaaS Services – Oracle HCM and Recruitment Cloud	
Responsibilities:	▪ Solution and Integration Architecture ▪ Requirements Gathering and new Integration Projects Scoping, Budgeting ▪ Solution Performance Optimization and Performance Testing ▪ Solution Cut-over and Go-Live support ▪ Integration Layer re-use for Data cleansing and Data Quality processes implementation ▪ Cut-over, Go-Live, Post-Go-Live solution support and KT sessions to Customer	
WIND 3, ITALY [Communications]		May 2019 – October 2020
Project:	Octopus – Financials ERP and Integration Cloud Transformation to SaaS and PaaS	
Role:	Integration Architect, Technical Architect, Solution Architect and Functional Analyst	
Description:	Project introduces Financials ERP SaaS and integrates through PaaS with external systems. Customer is in the process of merge of Wind and Tre communications stacks and in the process of introducing new Digital Solution stack. Integration solution in Oracle PaaS needs to mediate between Oracle SaaS applications, custom extensions and various third-party systems using both legacy (files, database exports, SOAP, REST and Streams-Kafka). IaaS Services – ODI, Oracle Streams PaaS Services – SOA CS, OIC, Java CS SaaS Services – Oracle Account Receivables and Collections ERP Cloud	
Responsibilities:	▪ Solution and Integration Architecture ▪ Requirements Gathering and new Integration Projects Scoping, Budgeting ▪ Solution Performance Optimization and Performance Testing ▪ Solution Cut-over and Go-Live support ▪ Integration Layer re-use for Data cleansing and Data Quality processes implementation ▪ Cut-over, Go-Live, Post-Go-Live solution support and KT sessions to Customer	

Australian Visa Processing Consortium, Australia
[Government]

2018

Project: Global Mobility – Integration Architecture, API management and Workflows

Role: Oracle Enterprise Architect – for Integration, API, Process Workflows domain

Description: Project introduces Global Mobility Platform and Talen Management to fulfill demands from Government, Government Education and Visa and external Job Marketplace. It integrates and Extends Oracle Marketing Cloud processes using OIC with Australian Government systems, Visa Applicants as users and edge systems like Linked In, Facebook, Australian Health Care, Travel and Health Insurance. SaaS extensions and Integration solution in Oracle PaaS uses Oracle Mobile Cloud Service and OIC (Processes, Visual Builder Cloud and Integration).
PaaS Services – MCS, OIC, IDCS, API Platform, Oracle AI, Oracle Digital Assistant
SaaS Services – Oracle Engagement Cloud, Oracle Marketing Cloud, Oracle Policy Automation

- Responsibilities:**
- Solution extensions and Integration architecture
 - Defining Minimum Viable Product (MVP) for several Visa Processing Parties
 - Definition of new Cloud Digital Platform and Marketplace Integration
 - Solution Proof of Concepts and Solution Prototypes
 - High Level Integration Design and Bill of Material for modern Global Digital Platform
 - Producing Budgetary Estimations, Defining Scope and Resource Planning for the future project/program for Integration, API, Process Workflows domain
 - Creating Global Mobility Reference Architecture

Recent Projects and experience summary

Date	Project	Role	Products / Skills
08/2021-current	Technology Engineering	Cloud Solution Architect for Integration, Data Replication, API Platform and API Management, Process Automation, AI Services and Machine Learning, Digital Assistant, Block-Chain	ArchiMate, Draw.io, Atom, OCI, OCI PaaS Services
04/2021-07/2021	Atradius, NL	Oracle MW Expert for Oracle MW Infrastructure. Supporting Testing, Performance Testing, API Management and Secure API Consumption.	WLS, OHS, OSB, SOA, BPM, Oracle JET, Oracle API Platform, Postman, SOAP UI, WLST
11/2020-03/2021	G4S UK	Oracle and Cloud Integration Expert for Oracle Recruitment Cloud ORC, Conducting Integration Design, Leading Technical Delivery, Presenting and Supporting SIT/UAT and e2e Recruitment Process Testing	JAVA, BIP, ORC, Apache Tomcat, Oracle BI Analytics, Postman, SOAP UI
05/2019-10/2020	Octopus FARC, WIND 3, Italy	Oracle and Cloud Integration Expert for Oracle Cloud ERP, Oracle Inceptive Commissioning and Communications Industry BSS Stack(s), Conducting Performance and System Integration Testing	OIC, Oracle SOA CS, ODI, Oracle ERP CS, DevCS, Oracle Inceptive Compensations, Apache Kafka, Oracle Streams Analytics, BICC extract
03/2019-04/2019	Ministero della Giustizia, Italy	Oracle SOA and BPM Expert for BPM, SOA Integration and Process Workflows domain Technical Design and Implementation of the Departmental Workflow – Protocol Department to register to Lawsuit Request, Preparation and Decision Publishing for further Lawsuit Process	Oracle SOA and BPM 12c, OSB 12c, Java Spring, IBM Protocol System, Oracle Web Center Content 12c, Archi (4.3), SOAP UI(SOAP), Postman (REST), Oracle SQL Developer, JDeveloper 12c
11/2018-02/2019	Nuovo Pignone (GE Oil & Gas), Italy	Technical Design and Reengineering of existing Quotation and Order Processes to implement E2E Opportunity to Order Process. Reengineering of processes and services to support Long Quotes/Orders with >1k Items. Supporting SIT, QA and Go Live Advising SOA/BPM Roadmap and pain points to upgrade current solution to 12c	Oracle SOA and BPM 11g, ADF 11g, Salesforce Opportunity Management, Oracle ERP - EBS r12, Oracle Managed Cloud (IaaS for MW), Oracle BAM 11g, Archi, SOAP UI, Postman, Oracle SQL Developer, JDeveloper 11c
07/2018-10/2018	Australian Visa Processing Consortium, Australia	Oracle Enterprise Architect – for Integration, API, Process Workflows domain for Global Mobility – Integration Architecture, API management and Workflows.	OIC (VBCS, PCS, Integration, Business Insight), Oracle Engagement Cloud, Oracle ERP CS, Oracle Marketing Cloud, Oracle IDCS, Oracle

Date	Project	Role	Products / Skills
		Covering Integration, Process Workflows and API domains in definition of new Cloud Digital Platform and Marketplace Integration	CX Cloud, Oracle Policy Automation, Oracle API P
02/2018- 07/2018	IKEA IT, Sweden	Oracle MW Expert for Central Integration Platform – Monitoring Advisory and Review of Central Integration Platform Monitoring Practice (SOA, OSB, ODI, BAM)	Oracle FMW 11g (SOA, OSB, WLS), Oracle FMW 12c (SOA, OSB, BAM, ODI), OEM 13c, IKEA Legacy Systems
08/2017- 02/2018	Michelin, France	Oracle Technical Expert and Technology Architect for MDM for Hybrid Architecture – O2C to Cloud	OIC, Oracle ICS, Oracle ERP CS, Oracle Sales Cloud, Salesforce, Oracle EBS

Oracle professional experience

Date	Position	Description
06/2021-now	Technology Architect – BPI Specialist Reporting to Alexandru Negrea and Marcel Straka	➤ Cloud Solutions Specialist – AI and Application Integration ➤ Cloud Solutions Specialist for Business Process Innovations ➤ Cloud Technical & Cloud Solution Architect for Emerging Technologies.
2019 – 05/2021	Technical Director OCS Reporting to Marcel Straka	Technical & Solution Architect for Integration, Process Management, Big Data & Cloud
2016 – 2019	Technical Manager OCS	Technical & Solution Architect for Integration, Fusion MW & Cloud
2011 – 2015	Senior Principal Consultant OCS	Technical & Solution Architect for Integration, Fusion MW & Cloud
2008 – 2011	Principal Consultant OCS	Technical & Solution Architect for Integration, SOA and BPM, Enterprise Governance

Languages

Slovak - native
English - fluent
Russian – intermediate
German - basic

Education

Master of Science at Slovak Technical University, Faculty of Electrotechnics and Informatics (Dipl. Ing.)
